Proposal Name Inyo-Mono IRWM Plan Revision Project *

Proposal Objective The central objective of the Inyo-Mono Regional Water Management Group (I-M RWMG) is to strive collaboratively and inclusively towards a better water management future for the Inyo-Mono Planning Region. More specifically, the primary objective of this proposal application is to create a comprehensive, inclusive and competitive Plan by building on the foundation of the initial plan. A secondary objective of this proposal is to continue to build local capacity among relevant stakeholders involved in the I-M RWMG. This will enable stakeholders to more effectively identify priority water needs, determine strategies and actions to address priority needs and increase the capacity to secure adequate funding to address such needs. Specific actions to be addressed include, but will not be limited to: (1) Continued outreach to and engagement of relevant stakeholders with an emphasis on involving Disadvantaged Communities, (2) Development and refinement of goals, objectives, strategies and actions associated with water related issues in our region, (3) Refinement of project ranking criteria and the process of project prioritization, (4) Drafting of climate change strategies per DWR's requirements, (5) Providing training to build local capacity among small regional community service districts to conduct needs assessments of their respective water challenges, (6) Assessing, determining, establishing and optimizing long-term and sustainable organizational structure and staffing for the I-M RWMG, (7) Building stakeholder capacity to implement and manage projects within our region, and (8) Development of a portfolio of priority project proposals to be submitted for Proposition 84, Round II implementation funding. *

01. PROPOSAL DESCRIPTION

Provide a brief abstract of the Proposal. Please note if the Proposal will facilitate or support the participation of DAC's in the IRWM planning effort.

The central objective of the Inyo-Mono Regional Water Management Group (I-M RWMG) is to strive collaboratively and inclusively towards a better water management future for the Inyo-Mono Planning Region. To this end, the Inyo-Mono Regional Water Management Group (I-M RWMG) intends to have a completed and adopted plan submitted to the California Department of Water Resources (DWR) no later than January, 2011. The initial Plan (Phase I Plan) is being developed with two goals: first, completing a plan which conforms to the DWR Prop. 84 Plan Guidelines; second, qualifying to apply for first round Prop. 84 implementation funding. Given the limited resources of the I-M RWMG thus far, the size of our planning region and the number of Disadvantaged Communities within the region, along with new requirements for plans to take effect prior to the next round of implementation funding, it is the intent of the I-M RWMG to pursue Planning Grant funds essential to the revision and improvement of our initial plan. Indeed, this proposal and application for state funding assistance is considered a critical step towards achieving the central objective of the I-M RWMG. Continued outreach and engagement of Disadvantaged Communities and building capacity amongst stakeholders involved at the community, county and regional scales are two fundamental principles guiding the I-M RWMG. More specifically, the primary objective of this proposal application is to create a comprehensive, inclusive and competitive Plan by building on the foundation of the initial plan. A secondary objective of this proposal is to continue to build local capacity among relevant stakeholders involved in the I-M RWMG. This will enable stakeholders to more effectively identify priority water needs, determine strategies and actions to address priority needs and increase the capacity to secure adequate funding to address such needs. Specific actions to be addressed include, but will not be limited to: (1) Continued outreach to and engagement of relevant stakeholders with an emphasis on involving Disadvantaged Communities, (2) Development and refinement of goals, objectives, strategies and actions associated with water related issues in our region, (3) Refinement of project ranking criteria and the process of project prioritization, (4) Drafting of climate change strategies per DWR???s requirements, (5) Providing training to build local capacity among small regional community service districts to conduct needs assessments of their respective water challenges, (6) Assessing, determining, establishing and optimizing long-term and sustainable organizational structure and staffing for the I-M RWMG, (7) Building stakeholder capacity to implement and manage projects within our region, and (8) Development of a portfolio of priority project proposals to be submitted for Proposition 84, Round II implementation funding.

North and South Lahontan

Q7. ELIGIBILITY

Does the application represent a single application from an IRWM Planning region approved in the RAP (see section II, Table 1 of the Planning PSP)?

Yes

If yes, include the name of the IRWM Planning region. If no, explain.

Inyo-Mono IRWM Planning Region

Q8. ELIGIBILITY

Is the applicant a local agency or non-profit organization as described in Appendix B of the Guidelines?

Yes

If no, please explain.

Q9. ELIGIBILITY

List the urban water suppliers that will receive funding from the proposed grant. Those listed must submit self certification of compliance with California Water Code (CWC) §525 *et seq.* and Assembly Bill (AB) 1420 (see Attachment 6 of the Planning Grant PSP). If there are no urban water suppliers, so indicate.

None

Q10. ELIGIBILITY

Have all of the urban water suppliers, listed in Q9 above, submitted complete 2005 Urban Water Management Plans (UWMP) to DWR? Have those plans been verified as complete by DWR? If not, explain. Will all of the urban water suppliers listed in Q9, along with any additional urban water suppliers that meet the urban water supplier definition threshold for the first time, submit updated 2010 UWMPs, consistent with the 2010 UWMP Guidebook and verified as complete by DWR, before the execution of a grant agreement? If not, explain.

Not Applicable

Q11. ADOPTION DATE

Identify the adoption date or anticipated adoption date of the IRWM Plan.

1/31/2011

Q12. COMPLETENESS CHECK

Have all of the fields in the application been completed?

Yes

If no, please explain.
